

Calabasas Meals on Wheels

This program supports older adults living alone, without assistance in the home or ability to drive.

We serve the residents of Calabasas based on availability.
This program is 100% supported by volunteer drivers.

Recipients are delivered two meals including lunch and dinner.
This is a fee-based program, clients are billed monthly.

Meals can not be left at the door, the recipient must be home to accept the meal.
Meals are available weekdays, recipients are not required to receive meals 5 days a week, you may choose the amount of days that work for you.

This is a wonderful solution for a senior who has recently had surgery or a condition where they require additional support.

In addition to meals, ONEgeneration provides a support system, with social services coordinators that can provide an in-home visit to assist with referrals of services.
