**PUBLIC HEARING**

Consideration of:

1. **A Final Environmental Impact Report for Vesting Tentative Map 63567, Including a General Plan Amendment, Pre-Zoning, City Annexation of Approximately 7.8 Acres of Property from the County of Los Angeles and a Ridgeline Development Permit; and**
2. **A General Plan Amendment and Pre-Zoning of Approximately 7.8 Acres of Property Proposed to be Annexed; and**
3. **An Application for Vesting Tentative Map 63567, Including 7.8 Acres Proposed to be Annexed to the City; and**
4. **An Application for a Ridgeline Development Permit**

Mayor Freedland provided a few general statements and outline on how this public hearing will run:

speaker cards are required; everyone who wants to speak will get a chance to do so; after the staff report, he will ask the EIR consultant for their presentation, followed by the applicant's presentation; public comments will then be heard; he would ask that comments be limited to three minutes or less, and that repetition be avoided if at all possible; all comments and questions should be addressed to the Mayor and Council, not the audience; if the public hearing hasn't concluded this evening, it will be continued to Tuesday, November 13, 2018; please be courteous and respectful to everyone, even if you do not agree with their position.

Mayor Freedland then opened the public hearing and asked City Engineer Dirk Lovett for a staff report, which he provided as follows:

a previous application for this site was submitted to the City in April 2006 proposing eight (8) residential lots ranging from 1.06-3.92 acres with building pads ranging from 28,750-56,193 square feet on eighteen (18) acres and cutting the highest ridge down 55'; in August 2011 it was determined to be inconsistent with the General Plan and was denied by the City Council; the current application is for approval of VTM 63567 for the subdivision of seventeen (17) acres into seven (7) residential lots, requiring the construction of necessary private and public improvements in accordance with the ordinances, policies and standards of the City; a detailed staff report is included in the City Council, staff and public packets outlining the design and construction of the proposed project; the project, as proposed would require the lowering of a protected ridge above Lasher approximately 50 feet; dirt fill from the ridge would be used to repair a landslide located in the project location; in addition, 7.8 acres of undeveloped land would be annexed in from Los Angeles County; in addition, proposed lots 2,3,4, and 6 do not meet the requirements of Section 5-3G-3:A of the City's Municipal Code; public hearing notices were posted and mailed to all properties within 500', along with a citywide mailing of the notice; posted on the City's website, sent to the City's 538 email subscribers, published in the October City newsletter, and mailed to all persons or agencies that submitted written comment on the project and DEIR.

Rincon representatives Bronwyn Green and Principal Joe Power made a power point presentation discussing the proposed project, the EIR process, CEQA requirements, impacts, alternatives, comment letters, etc. The EIR determined that there would be unavoidable significant environmental impacts related to grading and the ridgeline if the project was approved as is. The EIR consultant deemed Alternative 4 "Ridgeline Avoidance with Landslide Repair" as the environmentally superior alternative. However, this alternative would most likely require the importing of soil. All other environmental impacts could be mitigated. (see presentation attached to minutes).

At this time, Mr. Scott Uhles, the Civil Engineer for applicant Mr. Mike Ashley, provided a presentation regarding the project. Mr. Uhles' power point is attached to the minutes.

The following residents and other representatives were in attendance and spoke in opposition of the project citing some of the reasons being, but not limited to the increase in noise levels, taking down or changes to ridgelines, removal of oak trees, impacts on the wetlands, and the negative change to the overall character of Hidden Hills: John Heubusch (24317 Bridle Trail Road); Mathy Wasserman (24832 Rolling View Road); Joe Loggia (24310 Little Valley Road); Mike Resnick (5890 Jed Smith Road); Farnaz Fardad-Finn and Patrick Finn (24422 Little Valley Road); Nathalie Blossom (24148 Long Valley Road); Scott Tepper (for Nick Karazissis – Far West Farms); Karleen Basch (24504 Wingfield Road); Britt Aaronson (24407 Little Valley Road); Paul Frimmer (24228 Bridle Trail Road); O'Hara Fottrell (25175 Eldorado Meadow Road); Gary Simons (5811 Round Meadow Road); Beverly Horowitz (5650 Penland Road); Sarah Key (24835 Eldorado Meadow Road); Heather Lieberman (24342 Bridle Trail Road); Marsha Weidman (5606 Jed Smith Road); Charlie Goldwasser (24279 Bridle Trail Road); Ted Rosenquist (24960 Kit Carson Road); Jill Rosenberg (24162 Long Valley Road); Laura Goldwasser (24279 Bridle Trail Road).

Mayor Freedland read the names of residents who submitted emails and letters to the City in opposition of the project for the reasons as noted previously: Lisa Moriarity (24603 Long Valley Road); Alan Gottlieb (24508 Wingfield Road); Lisann and Robert Gould (5857 Annie Oakley Road); Laura McCorkindale (██████████); Mark Carmer (23808 Long Valley Road); Mara Allen (5636 Round Meadow Road); Bernie Gilhuly & Catherine Furniss (24501 Wingfield Road); Eric Toeg (24173 Lupin Hill Road); Lynn and David Feldman (25264 Eldorado Meadow Road); Elizabeth and Daniel Johnson (23939 Long Valley Road); Pamela Boothe (23629 Long Valley Road); Barbara Lipkin (24938 Kit Carson Road); Linda and Rob Raznick (5404 Round Meadow Road); Jane and John Terlesky (5940 Highridge Road); Catherine Gourcier and Don Carmody (5519 Hoback Glen Road); Ellie Sambol (23807 Long Valley Road).

The City also received a letter from Bob and Nanci Mayer (24208 Bridle Trail Road) in support of the project.

Resident Sara Key submitted for the record to the City Council, 192 petitions signed by residents, 9 non-residents, 2 children and 2 horse boarders, opposing the Ashley Bridle Trail/Lasher Project.

Mr. Mike Ashley, the applicant, then addressed the City Council stating that:

he's been a developer for over 47 years and that there has never been a project he's done that hasn't been a positive outcome to the City, the Hidden Hills Community Association (HHCA) and neighbors; he feels that by taking down the ridgeline to the proposed height, a geological problem with a possible landslide will be fixed; he also pointed out that all the power poles within the development will be undergrounded and the City and HHCA should not pass up such an opportunity.

Mayor Freedland closed the public hearing and the Council discussed some of the concerns raised and opposed to by residents including the removal of the ridgeline, the possible landside issue, and increased noise levels.

As there was no further discussion, Mayor Freedland presented a MOTION, which was seconded by Council Member Siegel, and unanimously carried on roll call vote, directing staff to prepare resolutions of denial for proposed Vesting Tentative Map 63567 and a ridgeline development permit application, to be approved at the next Council meeting on 11/13/18.

At this time, the Council took a short recess, with the meeting being reconvened by Mayor Freedland at 10:10 p.m.
